

Grant Update

SWCD and DNR applications have been submitted. We should find out sometime in March or April if we are recipients of either of these grants.

James Johnson Update

Nothing new to report

Weise Property

County posted a report with information gathered from the public. At this time, the BLCA is withholding a letter of support and are continuing to compile thoughts from members before replying to the County.

Wenck Update

Dan is actively keeping us informed as he works through the data and recommendations.

Elk Lake TLID Update

Kenzie and Scott met with a small group of Elk Lake residents. They seem very interested in becoming a LID or joining our TLID. We will keep monitoring their progress.

New AIS in Briggs Update

Golden Clams have been monitored throughout the winter. These clams have been found near the Briggs Lake landing. The DNR cancelled an onsite research because of cold weather and will be rescheduling in March. (It's been rescheduled for Tuesday, March 9 - we have 2-3 residents on the lake attending)

New Business:

Annual Meeting Discussion:

Nominations: Harry and Diane's terms are up this year. Diane can run but Harry cannot.

Speakers: We had a discussion whether a speaker is necessary this year.

Goals: Continue with AIS, Water Stabilization and Water Quality.

Budget: Our proposed budget will run from January to December
