

## TLID Goals

1. Monitor and treat Curly Leaf Pondweed, Eurasian Water Milfoil, Purple Loosestrife and any other Aquatic Invasive Species as indicated by surveys and as permitted by MN DNR for 2023
2. Record, analyze and report lake levels via Water Level Logger to provide substance for planning efforts throughout the year of 2023
3. Determine how to increase involvement in 1 Watershed 1 Plan by Q1 2023 to aid in future Water Stabilization efforts
4. Monitor progress of Soil & Water Conservation District efforts to explore grants to fund alum feasibility study by mid-year 2023
